Hor the Yeam Col. T. T. Garrard for Congress.

Mr. Editor: The time is fast approaching when the Democracy of the Sixth District will be called upon to select a can idate for Congress. We will not be troubled to find many good and true men, but to get one tried in the fire, that .\$4 00 has come out pure gold, let us have T. T. Garrard, of Ciay. As a citizen, he is honorable, charitable, moral, and kind; as a member of the Kentucky Legislature, both in the canvass and in the House, he was found able and efficient, never shrinking from his duty, nor stooping to anything below the h ghest tone of a gentleman; as an officer in the Mexican army, he gained for himself a renown that none could excel; in the Senate, where he now fills a seat, no man could better acquit himself, or give more satisfaction to his party and the country generally. From his party In receives the expression of well done good and faithful servant; from the Opposition he receives all the credit they can give to an honest, laithful, and industrious Democrat.

I am exceedingly sorry to learn that in some portions of the District an effort is being made to n convince the people that the Colonel is not a speaking man, and therefore should not receive the nomination; but let me assure the workers of that project that the Democracy of this District would not feel that their cause was safer submitted to the hands of any living man than that of Col. T. T. Garrard.

From Dr. James M. Jarrett, of the New York Lung Infirmary.

MY connection for the past eight sears with the nbove Institution, as Chief Physician, and a twelve years' course of steady devotion to the Curo of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical curo of all diseases of the Threat, Lungs, and Air-Passages. By Inhalation, the yapor and curative properties of medicines are directly addressed to the diseased organs and the integrument. I do not advise the use of Medical Inhalation of any kind, 19 the exclusion of general treatment; and although I cansider it a useful adjuvant in the proper management of those fearful and often fatal diseases, yet I deem it very necessary that each patient should have the benefit of both general and local treatment. The success of my treatment in the above diseases, and the high character of the Institution over which I have so long had the honor to preside, are too well knewn to aced any cubeg or comment from me. At the solicitation of many private and professional friends, through whose philanthropic aid the above charity has been long and hiberally supported, and after due consideration, I have concluded to make such arrangements as will bring the benefits of my experience and treatment within the reach of ull, and not confine myself, as heretofore, to those only who catered the Infirmary, or who were able to visit me at my office. Hoping bring the benefits of my experience and treatment within the reach of all, and not confine myself, as heretofore, to those only who eatered the Infirmary, or who were able to visit me at my office. Hoping therefore that the arrangement will give entire satisfaction, both to my professional brethren and the public. I would respectfully announce, in exactusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to surreach individual case, Inhaling Vapors, Medical Inhalers, &c., &c., will be forwarded by express to any part of the United States or the Canadas. Terms—My terms of treatment by letterlare as follows, viz: \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance \$6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. Patients, by giving a full history of their case, and their simptoms in full, can be treated as well by letter as by personal examination. Patients usualing themselves of Dr. Jarrett's treatment may rely myon immediate and permanent relief, as he seldom has to treat a case over thirty days. Letters for advice promptly answered. For further particulars address:

AMES M. JARRETT, M. D., Xo, \$20 Broadway, cor, Twelfth St., N. Y. P. S.—Physicians and others visiting the city are respectfully invited to call at the Infirmary, where many interesting cases can be witnessed, and where our improved apparatus for the inhalation of medicated vapor can be seen and inspected.
